Dear Rising Fourth Grade Families,

Hello! My name is Mrs. Noonan, and I am very excited to join the St. Francis School community this coming fall teaching fourth grade! Each of the three years I have taught fourth grade has been a fun one, as it is an exciting year for many reasons. We look forward to growing in faith, studying history, and exploring new challenges in math, among many other things!

During the summer, please review math facts. Flashcards are a great resource! As we move into new challenges, remembering multiplication and division facts as quickly as possible will help you master new skills. Also, read! Summer is such a special time to discover new places and characters while lost in a good book. It is also a fun practice to keep track of each book you read to remember later on - this is something that I have actually been doing almost non-stop since I was in third grade myself. I have included a reading log to use throughout the summer. Please write down any books you read over the summer, as well as the authors. You do not need to fill out the entire list, or even come close! Some books are longer than others, and some more challenging.

I can be reached at noonane@stfrancisschoolnh.org.

Have a wonderful summer, and God bless!

Mrs. Noonan

Summer Reading List

Please write down the titles and authors of any books you read over the summer and be ready to give it to me at the beginning of the school year.
